The Youth in Philanthropy program is designed to give young people a platform for expression and innovation that can bring about new and sustainable solutions to community issues.

Through their participation in school-based youth in philanthropy councils, students learn lifelong lessons about charitable giving and volunteering. They make annual grant recommendations to the Community Foundation based on their examination of issues impacting youth, in particular, and their community, in general, and also help to raise money for this endowed fund.

Supporting Organizations

Supporting Organizations are similar to private foundations in that they operate with a separate board of directors with grant-making responsibilities, but because they operate under the “umbrella” of the Community Foundation, they operate more efficiently and with the benefits of a public charity. Directors enjoy a high amount of involvement in their philanthropy while benefiting from the Community Foundation’s grant and investment expertise and administrative support.

Corporate Partnerships

Corporate Partnerships are customized corporate giving programs that align with the values and culture of individual companies. The right giving plan improves employee morale, builds brand visibility and recognition, fosters customer loyalty, and maximizes the impact of your company’s giving and its return in tax benefits. Corporate giving plans often include donor advised grant-making funds, match employee contributions, and offer contributions as part of employee-reward programs.

Cotiviti

Cotiviti of Atlanta, Ga. with offices in Connecticut is a leading payment accuracy provider that helps healthcare payers and retailers achieve their business objectives by unlocking value from the incongruities it discovers in complex interactions with stakeholders.

Cotiviti donated 100 Lenovo T420 laptop computers and 40 Lenovo ThinkCentre M91p computers to the Northwest Connecticut Community Foundation. These computers are donated to nonprofits throughout Northwest Connecticut.
The Northwest Connecticut Community Foundation prides itself on providing prudent stewardship of a sizeable community endowment designed to benefit future generations of Northwest Connecticut citizens. Our investment objective is to maximize the endowment’s purchasing power by pursuing long-term investment results that exceed the spending policy—the amount needed for grants and expenses—plus inflation. This allows for sufficient and predictable growth to meet pressing community needs while providing capital preservation into the future.

The oversight and assessment of the Foundation’s investments are conducted by its Board of Directors and Investment Committee. Dedicated to the pursuit of strong returns within acceptable risk tolerances, the Investment Committee employs an asset-allocation strategy designed to capitalize on a well-diversified portfolio that performs well during a variety of market and economic conditions.

In doing so, the Investment Committee considers past and expected future performance of available asset classes, including investment strategies of other community foundations, nonprofit endowments and charitable funds, along with a variety of widely accepted performance benchmarks.
